

7 Makeup Mistakes

that are Secretly Ruining
Your Glam and **how to**
fix them

Most women make
at least one of these
mistakes without even
realizing it.

THE ULTIMATE —————

BEAUTY GUIDE

www.bibisglambar.com

Welcome

Beautiful makeup isn't about following every trend or using the most expensive products. It's about understanding your features, knowing what works for your skin, and enhancing your natural beauty with confidence.

Inside this guide, you'll discover seven common makeup mistakes that may be affecting your glam—and simple tips to help you achieve a more polished, flawless, and long-lasting finish.

Let's get started.

MISTAKE 1

Skipping Skin Prep

Why it Matters?

Makeup sits directly on your skin. If your skin is dry, dehydrated, or not properly prepared, your foundation may appear patchy, textured, or uneven.

How To Fix It

- *Cleanse your skin properly*
 - *Use a moisturizer suited to your skin type*
 - *Apply primer where needed*
 - *Allow products to absorb before applying makeup*
-

Pro Tip:

A flawless finish starts with healthy skin.

MISTAKE 2

Wearing the wrong foundation shade

Why it Matters?

A foundation that is too light, too dark, or the wrong undertone can create an unnatural appearance, especially in photographs.

How To Fix It

- *Test foundation on your jawline*
 - *Check the shade in natural lighting*
 - *Match your neck and chest area*
 - *Pay attention to undertones*
-

Pro Tip:

The right shade should disappear into your skin.

MISTAKE 3

Using too much powder

Why it Matters?

Excess powder can make makeup look heavy, dry, and cakey while emphasizing fine lines and texture.

How To Fix It

- *Use a light hand*
 - *Focus on oily areas*
 - *Build gradually instead of applying too much at once*
-

Pro Tip:

The goal is to set the makeup, not mask it.

MISTAKE 4

Ignoring your brows

Why it Matters?

Brows create structure, balance, and definition for the entire face.

How To Fix It

- *Follow your natural brow shape*
 - *Avoid overly harsh lines*
 - *Blend products properly*
 - *Brush through after filling*
-

Pro Tip:

Soft, natural brows often look more flattering than heavily drawn ones.

MISTAKE 5

Following every makeup trend

Why it Matters?

Trends come and go. What works beautifully on someone else may not suit your features, skin type, or face shape.

How To Fix It

- *Learn what flatters your features*
 - *Adapt trends instead of copying them*
 - *Focus on timeless techniques*
-

Pro Tip:

Confidence always looks better than trends.

MISTAKE 6

Poor Lighting During Makeup Application

Why it Matters?

Excess powder can make makeup look heavy, dry, and cakey while emphasizing fine lines and texture.

How To Fix It

- *Use natural daylight whenever possible*
 - *Face a window while applying makeup*
 - *Check your makeup in different lighting before leaving*
-

Pro Tip:

Good lighting can instantly improve your makeup application.

MISTAKE 7

Not setting makeup properly

Why it Matters?

Without proper setting, makeup can fade, crease, or separate throughout the day.

How To Fix It

- *Use setting powder where needed*
 - *Apply setting spray after makeup*
 - *Avoid touching your face frequently*
-

Pro Tip:

Setting your makeup properly helps preserve the work you've already done.

5 Beauty Habits Every Woman Should Adopt

1. *Drink more water.*
 2. *Remove makeup before bed.*
 3. *Clean your makeup brushes regularly.*
 4. *Never skip sunscreen.*
 5. *Invest in skincare as much as makeup.*
-

Beauty isn't about perfection.

*It's about enhancing what you already have,
understanding your features, and showing up
confidently as yourself.*

*Small improvements in your beauty routine can
create a huge difference in your overall results.*

The goal is not to wear more makeup.

The goal is to wear makeup better.
